The screenshot shows the Git website's download page. At the top, the Git logo is followed by the tagline "--distributed-is-the-new-centralized". A search bar is on the right. The left sidebar contains links for "About", "Documentation", "Downloads" (highlighted), "GUI Clients", "Logos", and "Community". The main content area has a "Downloads" section with buttons for macOS, Windows, and Linux/Unix. To the right, a monitor displays the "Latest source Release 2.36.1" with a "Download for Mac" button. Below this, there are sections for "GUI Clients" and "Logos". At the bottom, the "Git via Git" section provides instructions on how to clone the repository using the command `git clone https://github.com/git/git`.

Git via Git

If you already have Git installed, you can get the latest development version via Git itself:

```
git clone https://github.com/git/git
```

You can also always browse the current contents of the git repository using the [web interface](#).

Configurações básicas

```
git config -global user.name "Rafael Ribeiro"
```

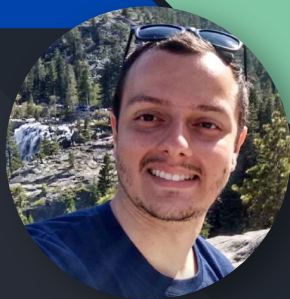

```
git config -global user.email "rafael.ribeiro@startse.com"
```

```
git config --global init.defaultBranch main
